📍 San Francisco, CA

PROFESSIONAL SUMMARY

Experienced Senior Software Engineer with 8+ years of expertise in full-stack development, cloud architecture, and team leadership. Proven track record of delivering scalable solutions that drive business growth, with experience managing cross-functional teams and mentoring junior developers. Passionate about emerging technologies and committed to writing clean, maintainable code.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

TechCorp Solutions

January 2021 - Present | San Francisco, CA

- Led development of microservices architecture serving 2M+ daily active users
- Reduced application response time by 40% through database optimization and caching strategies
- Mentored team of 5 junior developers, improving code quality and development practices
- Implemented CI/CD pipelines using Docker, Kubernetes, and Jenkins
- Collaborated with product managers to define technical requirements and project timelines

Full Stack Developer

InnovateTech Inc.

March 2019 - December 2020 | Austin, TX

- Developed and maintained React-based web applications with Node.js backends
- Integrated third-party APIs and payment gateways, increasing revenue by 25%
- Implemented automated testing suites, reducing bug reports by 60%
- Optimized application performance and improved user experience metrics

Software Developer

StartupXYZ

June 2016 - February 2019 | Remote

- Built responsive web applications using modern JavaScript frameworks
- Designed and implemented RESTful APIs and database schemas
- Participated in agile development processes and code reviews
- Contributed to open-source projects and technical documentation

TECHNICAL SKILLS

Programming Languages

JavaScript　　Python

TypeScript　　Java　　Go

Frontend Technologies

React　　Vue.js

HTML5/CSS3

Tailwind CSS　　Webpack

Backend & Databases

Node.js　　Express.js

PostgreSQL　　MongoDB

Redis

Cloud & DevOps

AWS　　Docker

Kubernetes　　Jenkins

Terraform

KEY PROJECTS

E-Commerce Platform Modernization

2023

- Migrated legacy monolithic application to microservices architecture
- Implemented event-driven architecture using Apache Kafka
- Achieved 99.9% uptime and 50% reduction in operational costs

Real-time Analytics Dashboard

2022

- Built interactive dashboard processing 100K+ events per minute
- Utilized WebSocket connections for real-time data visualization
- Integrated with multiple data sources and third-party APIs

EDUCATION

Bachelor of Science in Computer Science

University of California, Berkeley

2012 - 2016 | Berkeley, CA

Relevant Coursework: Data Structures, Algorithms, Software Engineering, Database Systems

CERTIFICATIONS

- **AWS Certified Solutions Architect** - Amazon Web Services (2023)
- **Certified Kubernetes Administrator (CKA)** - Cloud Native Computing Foundation (2022)

- **Google Cloud Professional Developer** - Google Cloud (2021)
