Senior Software Engineer

Position:	Senior Software Engineer
Department:	Engineering
Location:	🇲🇾 Kuala Lumpur, Selangor / Remote
Employment Type:	Full-time
Salary Range:	RM 8,000 - RM 12,000 per month
Experience Level:	Senior (5+ years)

About TechCorp Malaysia

TechCorp Malaysia is a leading Malaysian technology company specializing in cloud-based solutions and innovative software products. Based in Kuala Lumpur with operations across Southeast Asia, we're committed to building cutting-edge technology that transforms how businesses operate in the digital economy. We pride ourselves on being a truly Malaysian company that competes globally while contributing to the local tech ecosystem.

Job Summary

We are seeking a talented Senior Software Engineer to join our dynamic engineering team in Kuala Lumpur. You will be responsible for designing, developing, and maintaining scalable software solutions that serve customers across Malaysia and

the ASEAN region. This role offers the opportunity to work with modern technologies while contributing to Malaysia's growing tech industry.

Key Responsibilities

- Design and implement robust, scalable software applications using modern technologies

- Collaborate with cross-functional teams including product managers, designers, and other engineers

- Lead technical discussions and provide mentorship to junior Malaysian developers

- Participate in code reviews and maintain high coding standards

- Troubleshoot and resolve complex technical issues affecting regional customers

- Contribute to architectural decisions and system design for Southeast Asian markets

- Stay current with emerging technologies and regional industry best practices

- Support 24/7 operations within Malaysian business hours

Required Qualifications

- Bachelor's degree in Computer Science, Software Engineering, or related field from recognized Malaysian or international university

- 5+ years of professional software development experience

- Proficiency in at least two programming languages (Python, Java, JavaScript, Go, or similar)

- Experience with cloud platforms (AWS, Azure, or GCP)

- Strong understanding of database systems (SQL and NoSQL)

- Experience with version control systems (Git)

- Knowledge of software development methodologies (Agile, Scrum)

- Excellent problem-solving and analytical skills

- Strong communication skills in English and Bahasa Malaysia

- Malaysian citizenship or valid work permit

Preferred Qualifications

- Master's degree in Computer Science or related field

- Experience with microservices architecture

- Knowledge of containerization technologies (Docker, Kubernetes)

- Experience with CI/CD pipelines

- Background in machine learning or data science

- Open source contributions

- Experience leading technical projects in Malaysian market

- Knowledge of regional compliance requirements (PDPA, etc.)

Benefits & Compensation

- Competitive salary: RM 8,000 - RM 12,000 monthly

- Performance bonus up to 3 months salary

- Medical and dental coverage for employee and family

- EPF contribution above statutory minimum

- SOCSO and EIS coverage

- Annual leave: 18 days + public holidays

- Flexible work arrangements and work-from-home options

- Professional development budget (RM 3,000 annually)

- Free parking and transportation allowance

- Company-sponsored team building and annual dinner

- Stock options program

- Gym membership reimbursement

How to Apply

Please send your resume, cover letter, and portfolio (if applicable) to **careers@techcorp.com.my** with the subject line "Senior Software Engineer Application - [Your Name]"

Required documents:

- Updated resume/CV

- Cover letter

- Academic transcripts

- Portfolio or GitHub profile

- Reference contacts (2-3 references)

Equal Opportunity Employer

TechCorp Malaysia is an equal opportunity employer committed to diversity and inclusion. We welcome applications from all qualified candidates regardless of race, religion, gender, age, sexual orientation, or disability status. We particularly encourage applications from underrepresented groups in the Malaysian tech industry.
